

UFO

user manual

Congratulations! You're the proud owner of a handmade effect pedal made by INCK. FX in Mechelen, Belgium.

INCK. FX

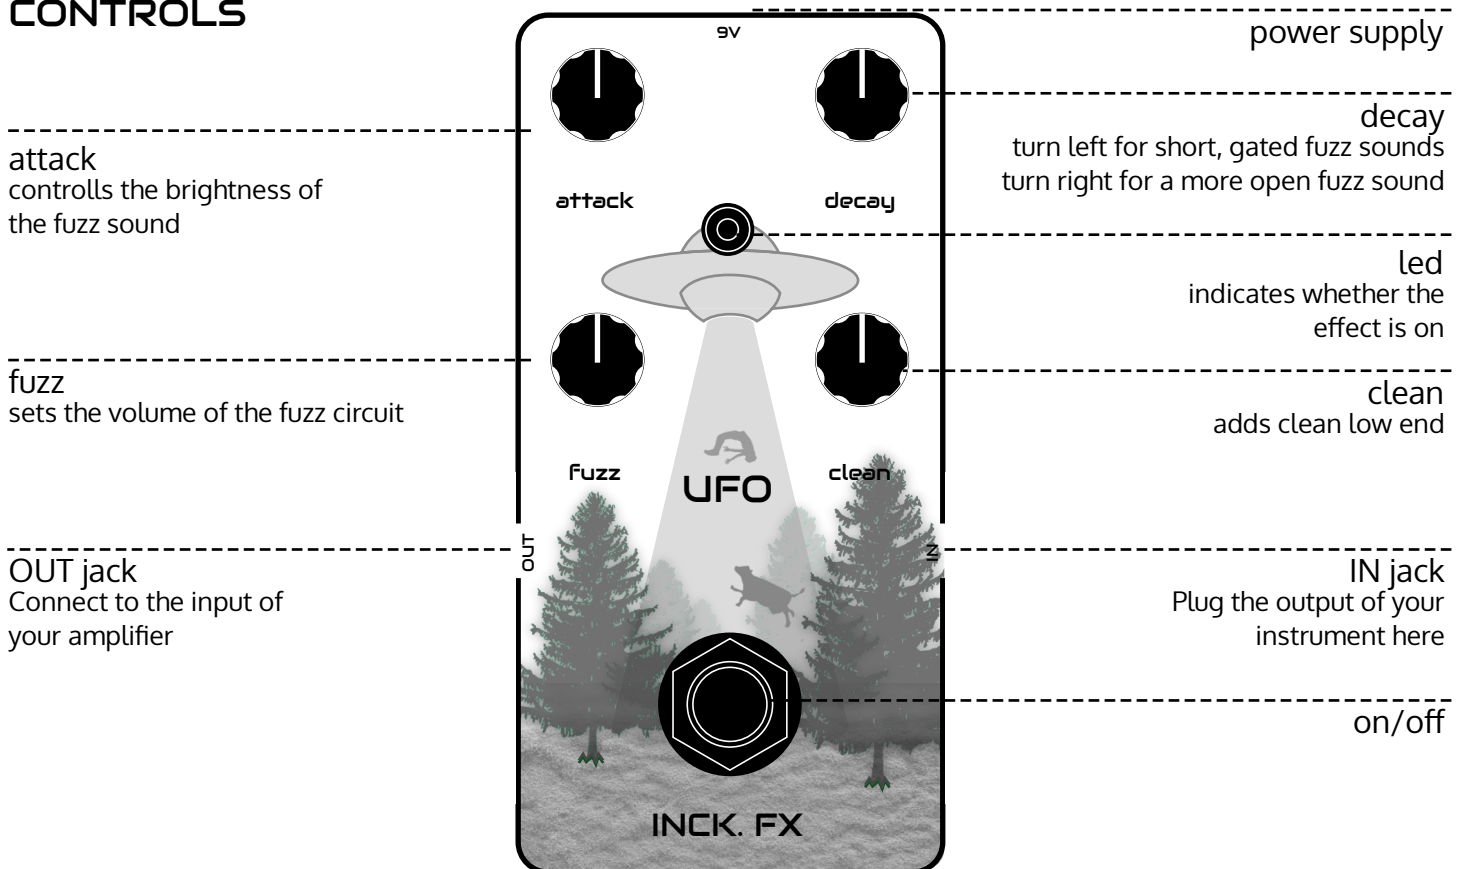

The UFO creates an synthlike fuzz sound for bass guitar.

WARRANTY

All products include a 2-year guarantee against defects. Outside of the warranty period, repair costs are kept as low as possible. Contact us for repair inquiries. The warranty covers problems related to the function or operation of the pedals due to faulty parts and/or problems related to workmanship. Return shipping costs in this case are covered by us.

Due to the handcrafted and -finished nature of our products: colors, styles, and designs may vary. The finish may have naturally occurring flaws, which are not covered by warranty. We also do not cover things such as broken switches, knobs, pots and jacks due to abuse. We will, though, repair problems that do not fall within warranty for labour, parts and shipping costs. If you have a non-working pedal, feel free to contact us at info@inckfx.com or at www.inckfx.com.
